

Clients and friends, we are always trying to inform you about our exiting product line. One of these lines is Armstrong Industrial Hand Tools.

The Armstrong Bros. Tool Co. was founded in 1890 by four brothers, the sons of a Scottish immigrant blacksmith. In the beginning, the company manufactured and distributed bicycle parts, together with tools and equipment people used to manufacture and repair bicycles.

In 1895, as part of their manufacturing program, the brothers introduced lathe tool holders. By 1900 this product showed such promise that the company started devoting full time to manufacturing.

Armstrong Tools are still, and will continue to be [Made in the U.S.A.](#) They are designed and manufactured for professional tool users and continue to be manufactured with uncompromising quality.

We stock the whole Armstrong Industrial Hand Tools line, please give us a call at 787-750-4820 or 787-750-2410 to coordinate a visit.

And do not forget our other great lines, thanks for your support.
